By Signing below, I / we are committing to the following clean-burning pledge:

1. I will only use the wood stove under specific conditions (i.e., power outage and/or during extremely cold weather when supplementary heat is required)
2. When I must burn wood, I will apply clean burning practices such as:
  - Using only seasoned wood (wood that has been dried for at least 6 months).
  - Splitting pieces to a maximum of 10-15 cm in size.
  - Maintaining the appliance and chimney regularly.
  - Following the manufacturer's guide when using my wood appliances.
  - Not burning garbage, treated or painted wood, driftwood, styrofoam, plastics, etc.
3. I will record my firewood use for the year following installation of the heat pump and provide that information to the Climate Coach when they reach out in a years' time.
